### Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and /or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.3.12. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The following claim has been amended upon agreement by applicant during a telephone conversation with Mr Peter F. Malen, Jr. on October 18, 2005.

In claim 8, line 1, the phrase "claim 8" has been changed to – claim 7 --.

### Reasons for Allowance

3. Claims 1-26 are allowed.

The following is an examiner's statement of reason for allowance:

Claims 1-26 are considered allowable since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Hajjar et al. (U.S. Patent No. 5,726,965) do not teach the claimed invention having an optoelectronic transceiver, comprising operational amplifier for controlling bias current in a laser diode, the operational amplifier comprising: **a first stage** including a **differential amplifier** receiving as input a reference voltage and a laser diode voltage and having a transconductance that increases exponentially as a difference between the reference voltage and the laser diode voltage increases, wherein said differential amplifier generates an output current based on the input, said laser diode voltage representing an optical output strength of a laser diode, said reference voltage corresponding to a desired magnitude of said laser diode voltage; a

**second stage** including a capacitor, the second stage integrating the output current to generate a first output voltage; and a **third stage** including an output buffer, said third stage configured to receive as input the first output voltage to generate a second output voltage approximately equal to said first output voltage, said second output voltage controlling a bias current for the laser diode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
